

To remain a thought and impact leader, HSG has set the following overarching goals in its sustainability strategy:

1. **Prepare our students** to become organisational leaders in a world that must tackle severe environmental and social challenges
2. **'Walk the talk'**, incl. net zero by 2030 and providing an inclusive, diverse space for studying and working
3. **Foster knowledge exchange and collaboration** to co-create positive societal impact (for people and planet)

## TEACHING

- Curriculum: widen sustainability offerings in courses & new course offerings
- Co-Curriculum: 'NextGen Sustainability' programmes

## RESEARCH

- Support development of sustainability expertise
- Foster interdisciplinary sustainability research

## SOCIETAL ENGAGEMENT

- Leverage knowledge and skills to shape a positive future, emanating from St.Gallen to the world
- Collaborate with diverse stakeholders for impact and scaling

## CAMPUS & OPERATIONS

- Sustainable operations incl. net zero, inclusive and diverse campus, and responsible investments
- Make sustainability visible on campus and beyond

**Integrate** and leverage existing structures and resources

**Leadership commitment and systematic management of impacts**

Note: Updates/changes are highlighted in red (new goal) and yellow (new core activity and measures).
